

Dr. Frank Narducci

Education

PhD., University of Rochester, Rochester, NY, 1996

Dissertation: Photon correlations in single and multi-atoms systems

Advisor: Prof. Leonard Mandel

Dual B.S. Degree in Physics and Math (graduated top honors in both), Drexel U., Philadelphia PA, 1989

M.A. Physics, University of Rochester, Rochester, NY, 1991

Background

1996-present: Physicist for the Naval Air Systems. Established a research team in 1997 to investigate various effects in atomic physics, including cold atom and warm cells

2000-2003- on loan part time to Office of Naval Research to manage "Lasers and Electro-Optics" program

2006- Voted Associate NAVAIR Fellow

2012- Voted NAVAIR Fellow

2013- Recipient of Dolores M. Etter Top Navy Scientist Award

1999- Present Associate Editor Physical Review A

2000- Present Adjunct Associate Editor Physical Review Letters

Frank has guest edited a special issue of the Journal of Modern Optics for the last 5 or so years devoted to the Proceedings of the Conference of The Physics of Quantum Electronics.
